

# Mifare Token

## Encapsulated Transponder

Token is specially designed for single journey ticketing in mass transit. With its robust plastic enclosure, token is with greater stability and lead to a greater numbers of uses. It is compliant with the ISO14443 Type A, Mifare or ISO15693 standard, a global open standard which is easy to integrate in existing infrastructures.

### Features

- Low sensitive to dust and moisture adherence
- Resistant to friction and shocks without any mechanical deformation

### Specifications

- **Base Material:** ABS or ABS+PC
- **Protocol:** ISO/IEC 14443 Type A 1-3 compliant
  - **Fast data transfer:** 106 Kb/s
  - **Reading/Writing time:** <200 ms
  - **Operating Temperature:** -25°C to +90 °C
- **Operating distance:** up to 6 cm (depend on the antenna geometry)
- **Dimensions:** Diameter: 25 or 30mm / Thickness: 2 or 3mm (ABS)
